Preface

This publication is a listing of journal articles and conference papers by Naval Research Laboratory authors for 19943. The bibliographic information is taken primarily from the Institute of Scientific Information database, *Science Citation Index Expanded*. Additional citations are generated from reprints of publications that are received in the Laboratory's Ruth H. Hooker Research Library. All references are unclassified.

Citations are arranged alphabetically by author. An author index is included at the end of the citation listing.

NRL authors who wish to add to or amend this record should submit new or revised bibliographic information for their publications using the form provided at the end of this publication.

An HTML version of this publication is mounted on the Website of the Ruth H. Hooker Research Library – <http://infoweb.nrl.navy.mil>. That version includes an interactive form through which bibliographic information for additional journal articles and conference papers may be submitted to the Library.

1994 Bibliography of NRL Journal Articles and Conference Papers

- Aaronson, H. I. and Hall, M. G. History of the Controversy Over the Roles of Shear and Diffusion in Plate Formation About M_d and a Comparison of the Atomic Mechanisms of These Processes. *Metallurgical and Materials Transactions A-Physical Metallurgy and Materials Science*, **25**(9):1797-1819, 1994.
- Aaronson, H. I. and Reynolds, W. T. Discussion to Atom-Probe Field-Ion Microscopy of Bainitic Transformation in 2.25Cr-1Mo Weld Metal. *Scripta Metallurgica et Materialia*, **30**(2):265-267, 1994.

Bibliographic Information Submission

NRL authors who wish to add to or amend this record should send new or revised bibliographic information for their publications on this form (which may be duplicated as necessary).

Please complete a separate form for each submission (addition or correction). Please do not abbreviate entries.

The on-line version of this document is located in the Library's InfoWeb - <http://infoweb.nrl.navy.mil> - interactive bibliographic submission forms are located with that Web-based document. The use of the interactive forms is our preferred method to receive new or corrected information

Paper-based bibliographic submission forms may also be used; they should be returned to:

Bibliography, NRL Code 5220

Bibliographic Information Submission – Journal Articles
